

# THERMO-TEK LM ECO ALU (LMH ALUR)

January 2018

## **APPLICATION RANGE**

### **DESCRIPTION**

Thermo-teK LM Eco ALU is a mat with formaldehyde-free binding material consisting of individual mineral wool strips (lamella) that are bonded on the one side to a tear-resistant, glass mesh reinforced aluminium foil.

### **PERFORMANCE**

| Max. service temperature   | 250 °C (EN 14706)               |
|----------------------------|---------------------------------|
| Service temperature facing | 80 °C                           |
| Reaction to fire           | A1 (EN 1350-1)<br>A2 at 20 mm   |
| Apparent density           | 35 kg/m³ (EN 1602)              |
| Declaration of performance | http://dopki.com/<br>T4305MPCPR |

| Description   | Sign           | Description/data                                |       |       |       | Unit  | Standard |              |              |
|---|----------------|---|-------|-------|-------|-------|----------|--------------|--------------|
| Thermal conductivity depending on temperature         | 9              | 10  | 50    | 100   | 150   | 200   | 250      | °C           |              |
|   | λ              | 0,037   | 0,044 | 0,056 | 0,070 | 0,088 | 0,109    | W/(mK)       | DIN EN 12667 |
| AS quality  | _              | ≤ 10  |       |       |       |       | ppm      | EN 13468     |              |
| Total water absorption                                | W <sub>P</sub> | ≤ 1   |       |       |       |       | kg/m²    | EN 1609      |              |
| Water vapour diffusion equivalent air layer thickness | S <sub>d</sub> | 100   |       |       |       |       | mm       | EN 12086     |              |
| Silicone free   | -              | No emissions by lacquering disturbing sustances |       |       |       |       | -        | -            |              |
| Melting point of fibres                               | _              | ≥ 1000  |       |       |       |       | °C       | DIN 4102-17  |              |
| Specific heat capacity                                | C <sub>p</sub> | 1030  |       |       |       |       | J/(kgK)  | EN ISO 10456 |              |
| Designation code                                      | -              | MW-EN14303-T4-ST(+)250-WS1-MV1-CL10             |       |       |       | -     | EN 14303 |              |              |
| Designation code                                      | _              | MW-EN14303-T4-ST(+)250-WS1-MV1-CL10             |       |       |       | -     | EN 143   |              |              |

Declared material properties are obtained in the production process and ensured by the factory production control in accordance with the European Standard at the time of manufacture. Observing storage and handling guidelines will maintain performance within published tolerances.

# **CERTIFICATES**

# THERMO-TEK LM ECO ALU

January 2018

# **ADDITIONAL INFORMATION**

### **Application**

The product is recommended for thermal, fire and sound insulation of the defined applications within technical insulation.

Pipe lines, Circular and rectangular air ducts, Heat storage tanks

#### Handling

Our products are easy to handle and easy to install. It is supplied packaged in cardboard boxes or wrapped in foil (depending on the product) which are designed for short term protection only. Further product information is mentioned on every pack.

#### **Storage**

For longer term protection on site, it is recommended to store the product either indoors or under a roof and off the ground.

### Standard formats\*

| Thickness | 20mm-140mm       |
|-----------|------------------|
| Width     | 500 mm           |
| Length    | 1.000mm-10.000mm |

<sup>\*</sup>Other dimensions on request.

Knauf Insulation mineral wool products with ECOSE® Technology benefit from a formaldehyde-free binder made from rapidly renewable bio-based materials instead of petroleum-based chemicals. The technology has been developed for Knauf Insulation's mineral wool products, enhancing their environmental credentials without affecting the thermal, acoustic or fire performance. Insulation products made with ECOSE® Technology contain no dye or artificial colours – the colour is completely natural.
